May 2011

Greetings to all of our friends and prayer partners. We hope 2011 has been a good year for you, it has for us! God is in charge and He is taking us somewhere. We continue to work with 6 US ministries and one in the UK.

We are praising the Lord for all He has done in and through us this year. The first Luminary School classroom block is now almost complete. The storage building that was on the property has been revised and is now the kitchen and

storage for kitchen equipment let is also complete. We are dry so that we can paint. Feb-

and books. The first pit toi- ruary 1st we moved the stu- since then they have gained the enrollment to increase as

we complete new classrooms. Since we started construction many homes have been built near the school. We began construction of the second classroom block at the beginning of April. God provided Zach Kennedy from Canada to help us with the oversight of the construction. We are anticipating completion of this block in the next couple of months. We still need about \$6,000 in order to complete this phase.

A well has been dug in Kakolo Villgae. The company we used had percussion equipment because of the sand in the area and so the digging of the well took about 2 months. The well is very productive and the villagers are so thankful. With the run off from the well our yard some pretty plants and school yard for shade for the to complete this classroom

they are going to start a garden for the village. We have contributed from some mango trees. We also purchased some Eucalyptus trees for the students. A second pit has been dug for another pit toilet. We are hoping building and toilets but the funds have been slow in coming. We still need about \$4,000 for this project in Kakolo Village .

This spring we were able to take a local pastor to visit Katele Village. We have been trying to help them start a local church but have not been successful so far. Pastor Chris Mwansambo and his pastors are going to have an outdoor crusade in May, place one of their pastors there for about two years and then appoint local leadership from that church. The village is so excited they have started building a "home" for the pastor. This church has also started the church in Kakolo Village that we currently work with there. We desire that the people view the church as an answer to their needs.

For His Glory Ministries from North Carolina came to visit us because they have a bible school in Lusaka. Prince Siame and Pr. Charles Miji took them to two of our schools and ex- Ministries and Creator's Touch Ministries is involved in. When they re- vation bracelets to use for evangelism. We have given them to some of The teachers use them to remind the students each week of God's love

plained all that Missions Touch turned home they sent us 4500 sal- our schools and other ministries. for them. Many children never have a bracelet and so they treat them as precious items. The children use them to talk to their friends about God's love for them.

We were very blessed to have Robert Schroeder visit us in Zambia for a month. We have known him for about 19 years and have also ministered at For His Glory Church in Spring Grove, Minnesota. Robert was a great blessing doing many small chores here in our house and going with Dave to all his appointments. He got a first hand look at daily life here in Zambia and even dealing with some of the government departments as we also had a container arrive while he was here. We also arranged for two opportunities for him to minister at local churches. It was great to fellowship with him.

Elizabeth Wheeler and Scott Green came to visit us for just a week but are making a difference here. Her youth pastor heard about Project Peanut Butter on TV (www.projectpeanutbutter.org) and talked to his youth group about actually doing something instead of just talking about it. Some of the students took the message to heart and called the next day with \$40. That started a quest to find the product and get more information. Elizabeth told the Lord that she couldn't
